Bracket Bender	£53.50

Reducing our environmental impact

We remain committed to our environmental policy, which means we place a high priority on minimising raw material usage, components, packaging and transport.

Steel is a sustainable material and can be recycled easily. Unlike plastic guttering it won't crack or leak and won't rust like cast iron. And because it's guaranteed for 15 years you won't have to replace it in a hurry either.

Today 90 percent of our operations are certified according to ISO 14001. A full environmental declaration is available on request.

Lindab Rainline™ System
Steel – the best solution for roof drainage

Price List September 2008

www.lindab.co.uk

Lindab Rainline – The roof drainage system produced in Sweden from prime quality steel

When it comes to creating beautiful, environmentally friendly and maintenance free buildings, using the right materials is everything. The Lindab Rainline Steel Rainwater system uses the very best in lightweight galvanised steel to create a contemporary, cost effective and eco-friendly guttering system that won't shrink, split or leak - and looks great too.

An elegant finish

Lindab Rainline is available in plain uncoated galvanised and aluzinc finishes or from a choice of ten standard stock colours. Each is coated with extra durable high build polyester paint for an attractive and elegant finish. For a totally individual look Lindab Rainline can also be supplied in natural copper.

Standard stock colours

Antique White RAL 9002	Copper Metallic RAL 8003
Black RAL 9005	Tile Red RAL 8004
Silver Metallic RAL 9006	Dark Red RAL 3009
Brown RAL 8017	Anthracite Metallic RAL 7037
Dark Grey RAL 7011	Pine Green RAL 6020

Beauty that lasts

Our coated guttering system is guaranteed for 15 years with a life expectancy in excess of 100 years. Each piece of steel is coated with 275g zinc per square metre, a naturally self-healing coating that won't discolour or rust.

Please note that copper metallic gutters and accessories are not available in 100mm dimensions. Pine Green and Anthracite Metallic are only available in selected sizes.

Freight charges applicable based on weight and all prices are excluding VAT. Orders below £50 net. will incur a £15 surcharge.

Hassle free fitting

Rainline has been designed to be easy to fit without the need for any fixings, sealants or specialist tools. Brackets can be adjusted to match any fascia board angle. Stop ends are self-sealing with an EPDM tube. Gutter joints create a very firm and durable union and are guaranteed leak-proof with a long-lasting EPDM seal and the gutter outlets have a one-grip snap-on mounting that ensures a perfect fit to the semi-circular shape of the gutter.
